History

Kelly and Glenn:

My schedule on the 23rd is very tough. I would suggest that you all go ahead and meet and Glenn can brief me afterward.

Rick

Subject: Next Steps??

Hi Rick and Glenn,
I want to get together with you to map out a "workplan" of sorts that clearly spells out NRCS's engagement with EPA on the model. I think it would be very useful to outline what our objectives are, what the issues are that we want to discuss, and the timeframes. This will help me get the modeling team prepared and ready to clear some time for these important discussions. As you know, they are deep into model calibration and model documentation, so I need to clearly map out the level of effort and time we need from them in working with NRCS and I want to give them some advance notice so we can be all set and ready to go when Glenn is ready.

This will also help Larry, Dave, Ann and others communicate how USDA NRCS and EPA are working together to address agricultural community's concerns and questions.

As my time is running out quickly (maternity leave starts 3/3!), I'd like to get together next week sometime. I'm available 2/23 before 2; 2/24 anytime, 2/26 anytime. Do any of these work for you?
